

## Apprenticeship Employers

Now that the Government has instructed schools and colleges to close at the end of lessons on Friday 20th March this is what you must do:

- Not send apprentices to college

Additionally, where possible, apprentices should:

- Continue to develop their skills, knowledge and behaviours with the support of their workplace mentor, in accordance with their apprenticeship criteria.
- Continue to record the evidence they are generating towards their 20% of the job training entitlement.
- Access any online learning resources made available by the college. Apprentices should be aware of how to access these.

Further information can be accessed from the Government website
